**Additional information:**

Resine Isolanti provides this designation code together with the DoP to facilitate the consultation of the CE marking by international customers. The marking shown here may differ from that indicated on the packaging or accompanying documents due to:

- declared NPD (No Performance Determined) values which can be omitted in the CE marking,
- graphic adaptations in relation to the available space and the printing media used,
- use of a different language (the same packaging is used in numerous countries),
- product already in stock at the time of updating the marking,
- printing errors.
